- 2 Click "Copy"

## Nimiq Email Signatures

A dynamic email signature generator for Nimiq.

### How to use it?

1. ✎ Fill up the form below with the information for your contact.
2. 🖨 Check the preview of the signature.
3. 📁 Copy or download the HTML.

**Important:** Download might not work. Create a new file in your computer called "nimiq-email-sig"

- ☐ Pretty output (leave unchecked for better output)
- 4. 📧 Read this guides to add the HTML to you email client:
  - [GMail](#)
  - [Outlook](#)
  - [Nimiq Email \(SOGgo\)](#)
- 5. 📧 Send an email to yourself to test if it works

- 3 Open your email

#### 4 Click "settings"

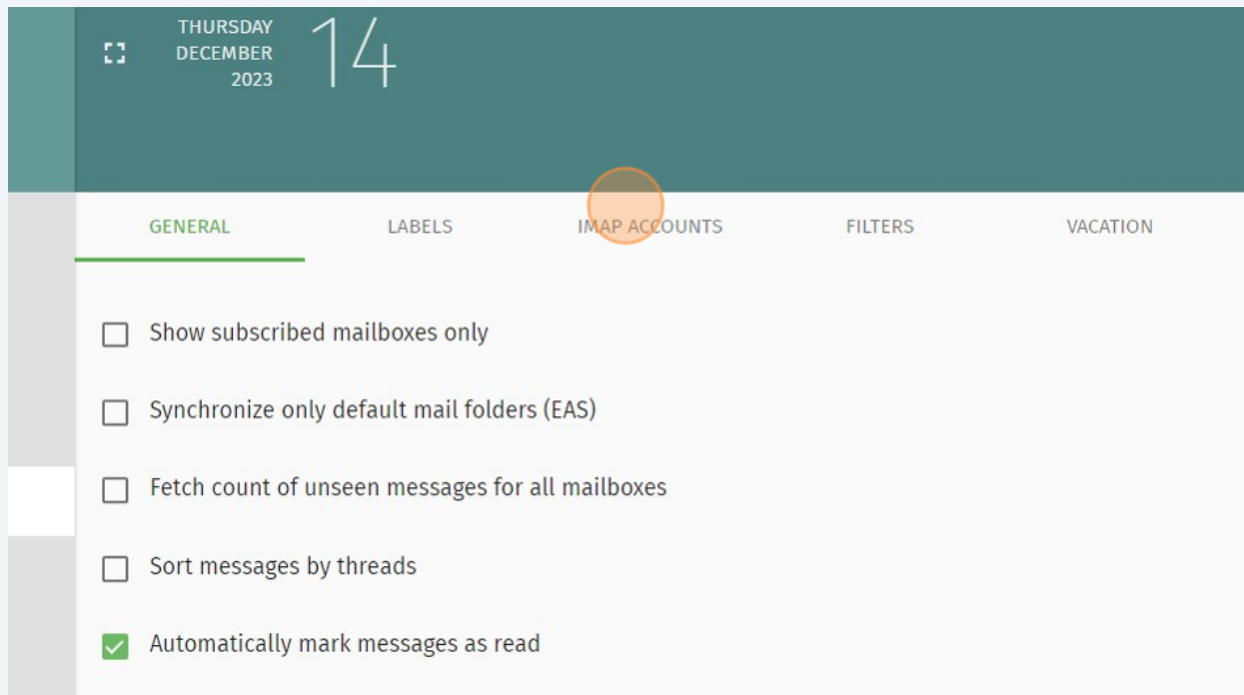

The screenshot shows the top section of an email client. On the left, a sidebar contains the user's profile (Maxi Garcia, maximo@nimiq.com), storage usage (2.07% used on 3072 MB), and a list of folders (Inbox | 1132, Drafts, Sent, Trash, Junk, Templates, Archive). A gear icon labeled 'Preferences' is highlighted with an orange circle. The main area shows the 'Inbox' with 1527 messages, sorted by 'Order Received'. The inbox list includes messages from Maxi Garcia, BrowserStack, LunarCrush, and Notion.

#### 5 Open Email Settings

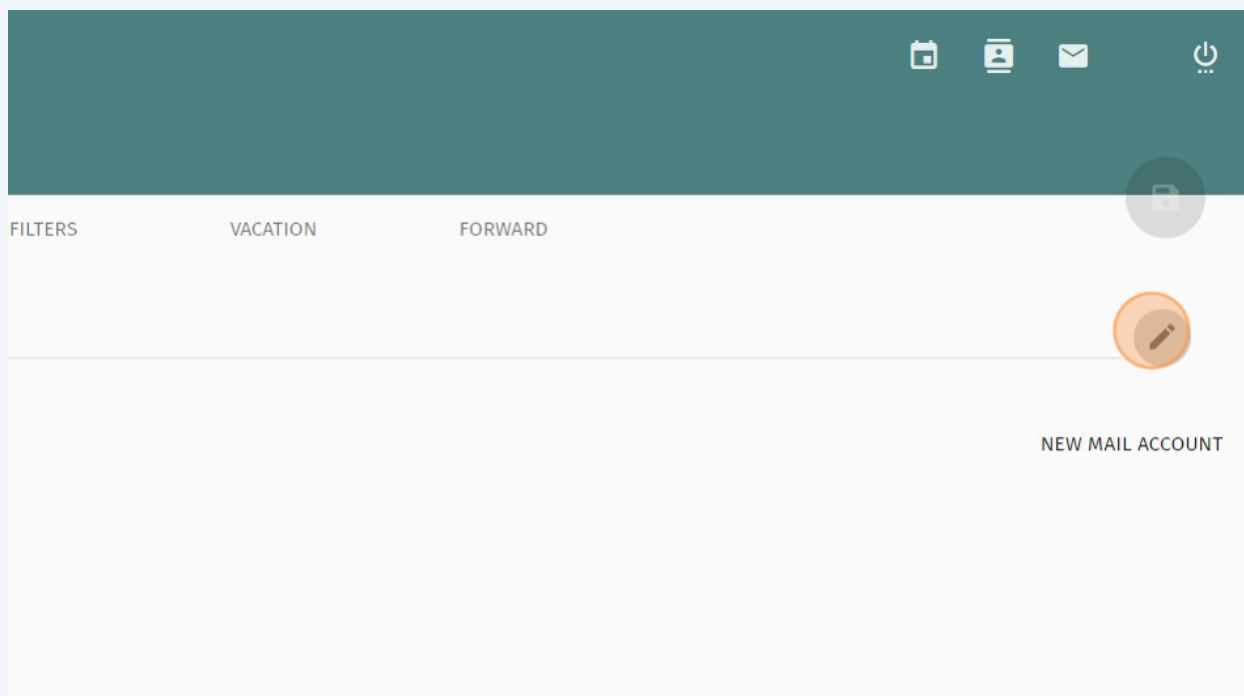

The screenshot shows the 'Mail' settings page. The left sidebar lists 'Preferences' with sub-items: General, Calendar, Address Book, and Mail (highlighted with an orange circle). The main area is titled 'GENERAL' and contains the following settings:

- SOG Version: 5.9.0
- Language: English en
- Short Date Format: 01-Dec-23 (dropdown menu)
- Long Date Format: Friday, Dec
- Default Module: Mail
- Refresh View: Manually
- ☐ Enable Desktop Notifications

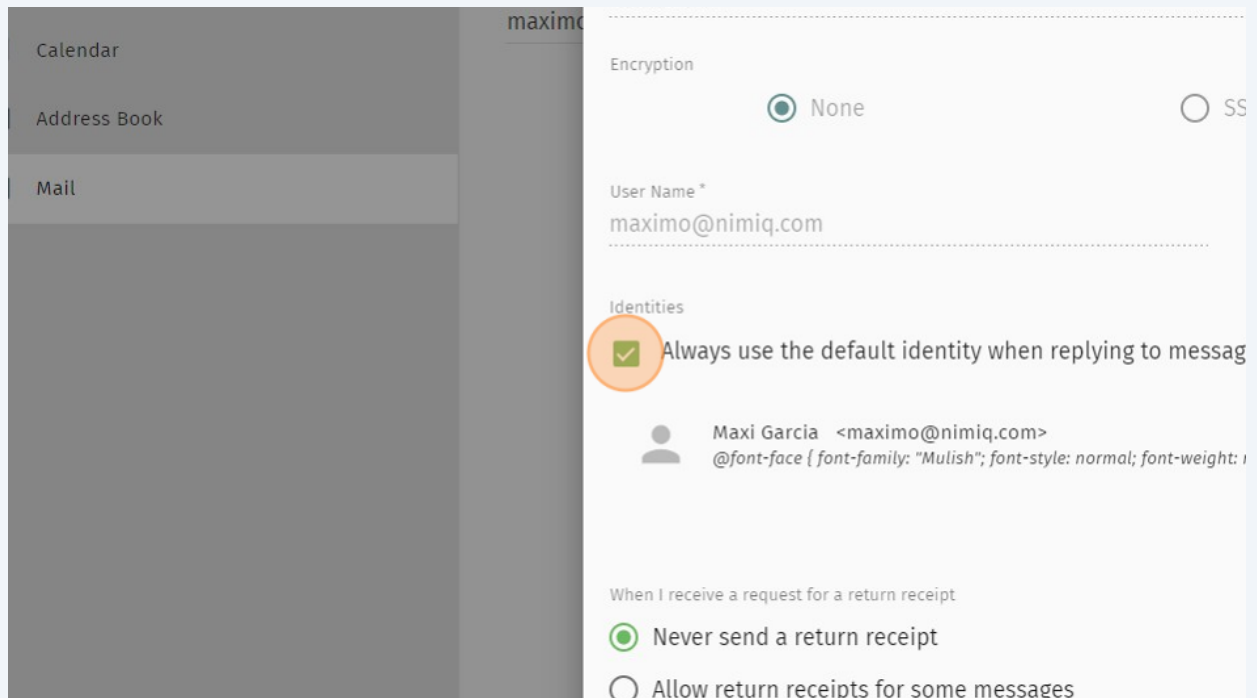

6 Click "IMAP ACCOUNTS"

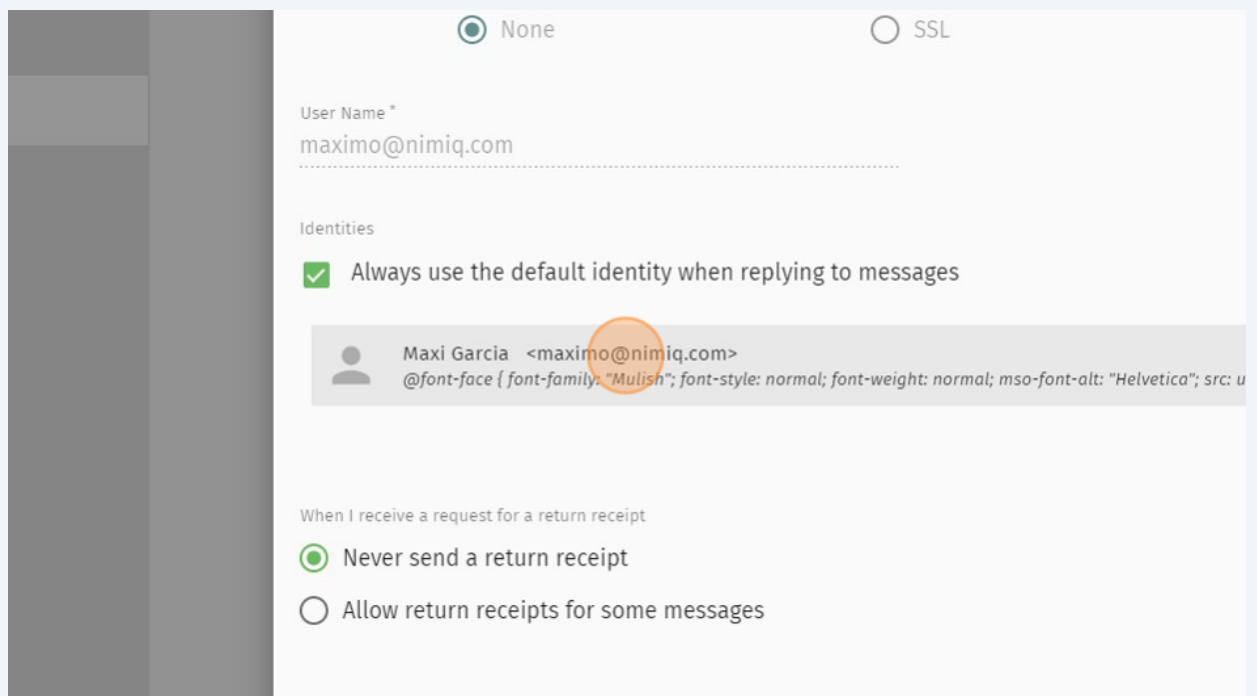

7 Click "edit"
